Shakti Industries, established in 1988 in Surat by Mr. Mahendra B. Siddhpura, is one of the leading manufacturers of high-security Safes, Strong Room Doors, Lockers and Home Safes. We are in the business of manufacturing safes from three generations. We have a team of engineers to take care of the highest quality standards from design, production, and quality control. We ensure the delivery of high-quality security products.

The safes manufactured by us have the latest research techniques, machinery, and modern technologies with CNC machines. The safes manufactured by us are used by Banks, Jewellers, Diamond Factories, Homes and other Government and Commercial establishment. With a wide range of products manufactured by us, Shakti Industries has been providing safety and security to valuables through protection from Theft, Fire and Destruction for the last 45 years.

FEATURES

1. Heavy and fully welded seamless body construction with two joints around the door.
2. High-strength Double Duty Barrier material with chemical and metal processes in the door and body.
3. High-security dual control 10 lever locks with a hard mounting plate before locks for drill protection.
4. Two-step door construction for better fire and burglary protection.
5. An automatic re-locking system is developed for better safety and in cases of attack on key locks.
6. Gas cutter (torch) and drill-resistant matrix material available for higher classes of safes.
7. Anti-corrosion-resistant, long-lasting paint process for better life of products
8. 38mm thick stainless steel shooting bolts for locking the door, outer and inner body construction.
9. Manual combination lock, Digital combination lock, Biometric lock, Time lock, etc. available for additional locking systems.
10. An ISO 9001:2008 certified company.
11. All our products are made as per BIS standards and are insurance valid.
